Texas Outpatient Dialysis Facilities with 50 % Or More Patients Using Arteriovenous Fistulas
As of March 2008

Provider #	Facility Name	City	% Fistulas	Primary Surgeon(s) or Surgical Group Credited by Facility Staff for Increasing AVF Rates in Their Facilities
452510	North Texas Dialysis Center	Wichita Falls	71.8	Fred Langner

Inclusion in this ranked facility listing is determined in the following manner:

- **A facility is added to the list** when prevalent AVF rate is 50% or higher for the average of all three months during the reporting period.
- **To continue on list**, facility must maintain prevalent AVF rate 50% or higher for the average of all three months during the reporting period.

* *Indicates a facility's **first** appearance on 50% AVF list*

If your facility is included on this list and the names of your surgeon(s) or surgical groups are not correct (i.e., names need to be added or deleted), please call Gay at the ESRD Network office to correct your information.
