

Dialysis Patient Citizens (DPC),
the leader in dialysis-patient driven advocacy, is thrilled to
announce the formation of its sister organization,
the DPC Education Center (The Center).

This new 501(c)(3) nonprofit organization will focus on education to empower dialysis patients to become active participants in their healthcare and push prevention as a tool to slow or stop the progression of kidney disease.

The Center will

- ✓ Fight to advance patient choice, access and health outcomes
- ✓ Improve access to patient-driven educational materials
- ✓ Empower patients to become more involved in their care
- ✓ Promote preventative actions to stop or delay the onset of disease
- ✓ Bring partners from both inside and outside of the kidney community to have the best possible ideas to the table.

The DPC Education Center represents a unique opportunity to combat kidney disease and improve the quality of life for millions of Americans.
