

# In-Center Hemodialysis Consumer Assessment of Healthcare Providers and Systems (ICH CAHPS)

ICH CAHPS Survey is the first national, standardized, and publicly-reported survey of patients' perspectives of dialysis care; it is also the first CAHPS survey focusing solely on a chronic disease.

- ICH CAHPS measures perceptions of patients with End-Stage Renal Disease (ESRD) receiving life-sustaining in-center hemodialysis care.
- ICH CAHPS is part of the ESRD Quality Incentive Program and is required as part of the value-based purchasing program for payments under the Medicare Program.

For more information on the ICH CAHPS Survey please visit:

## Attestations Requirement

- Submissions for ICH CAHPS Reporting Measure due in CROWNWeb by 11:59pm ET on **February 28<sup>th</sup>**.
- Facilities that are NOT eligible for the ICH CAHPS Reporting Measure because they did not treat a sufficient number of eligible patients, must attest in CROWNWeb that they are not eligible (i.e., treating fewer than 30 eligible patients).
- Facilities that ARE eligible for this Reporting Measure would leave the ICH CAHPS fields **BLANK** in CROWNWeb.

ICH CAHPS Attestation

Last Updated by on

During the "eligibility period" (i.e., Calendar Year 2016), did your facility treat fewer than 30 eligible patients for the ICH CAHPS Reporting measure?

Yes, I attest that my facility is not eligible for the ICH CAHPS Reporting measure because it treated fewer than 30 eligible patients over the course of the entire eligibility period.

Note: In this case, the following patients are excluded from the eligible patient count:

- 1) Patients not receiving in-center hemodialysis
- 2) Patients less than 18 years on the last day of the sampling window for the semiannual survey
- 3) Patients receiving hemodialysis from their current facility for less than 3 months
- 4) Patients receiving hospice care
- 5) Patients currently residing in an institution, such as a residential nursing home or other long-term care facility, or a jail or prison
