CMS Issues Nursing Homes Best Practices Toolkit to Combat COVID-19

Today, under the direction of President Trump, CMS released a new [toolkit](#) developed to aid nursing homes, Governors, states, departments of health, and other agencies who provide oversight and assistance to these facilities, with additional resources to aid in the fight against the coronavirus disease 2019 (COVID-19) pandemic within nursing homes. The toolkit builds upon previous actions taken by the Centers for Medicare & Medicaid Services (CMS), which provide a wide range of tools and guidance to states, healthcare providers and others during the public health emergency. The toolkit is comprised of best practices from a variety of front line health care providers, Governors' COVID-19 task forces, associations and other organizations, and experts, and is intended to serve as a catalogue of resources dedicated to addressing the specific challenges facing nursing homes as they combat COVID-19.
