

Infection Control Observation Tool

As a dialysis patient it is important to "Take Charge of Your Care". To keep yourself safe, always check to see if staff follow the correct infection control steps!

Help Us Keep Your Facility Infection Free!

Complete a quick Infection Control Observation by scanning the QR Code OR using the link:

<https://www.surveymonkey.com/r/ICOT>

Just open your smart phone camera, center it over the QR Code, and a pop-up will take you to the survey.

▶ Infection Control Tools:
