

SANOFI TRANSPLANTATION EDUCATIONAL INITIATIVE

You are cordially invited to a discussion regarding

Increasing Access to Kidney Transplantation

Program Objectives:

- Review kidney transplantation and discuss the need to increase transplantation rates
- Compare transplantation of high-Kidney Donor Profile Index (KDPI) kidneys to remaining on dialysis and waiting for low-KDPI kidneys
- Discuss transplantation with underutilized sources of deceased donor (DD) kidneys
- Examine available strategies to increase the living donor (LD) kidney pool, including improving risk prediction and increasing access through kidney-paired donation (KPD)
- Discuss programs and resources designed to increase transplant knowledge and access through patient and caregiver education

Sanofi Contact:

Cydney Bassett
