New AVF Toolkit

- AVF Maturation Tracking Tool
- New AVF Cannulation Procedure
- Clamp Policy
- Staff Rating
- Assessing for Cannulation
- Cannulation Skills
- AVF Maturation Assessment
- Additional Resources
  - Biology of arteriovenous fistula failure
    Prabir Roy-Chaudhury, Lawrence M. Sperge, Anatole Besarab, Arif Asif, Pietro Ravani
  - Early Arteriovenous Fistula Failure: A Logical Proposal for When and How to Intervene
    Arif Asif, Prabir Roy-Chaudhury, Gerald A. Beathard
  - Vascular Access Thrombosis Prophylaxis
    Devasmita Choudhury
  - Endovascular Preservation of Immature and Dysfunctional AVFs
    W. Perry Arnold
  - Endovascular Recanalization of Thrombosed AVFs
    W. Perry Arnold
  - Best Access Procedures from the Dialysis Units’ Viewpoint
    Lesley C. Dinwiddie
  - Challenge for the Interventional Nephrologist: Monitoring the Arteriovenous Fistula
    Campos R, Riella MC
  - Endovascular Management of the “Failing to Mature” Arteriovenous Fistula
    George M. Nassar
  - Expected Flow Parameters Within Hemodialysis Access and Selection for Remedial Intervention of Nonmaturing Conduits
    Martin R. Back
  - Predicting Arteriovenous Fistula Maturation with Intraoperative Blood Flow Measurements
    S.S. Berman, B. Mendoza, A. Westerband, R.C. Quick
  - Salvage of Nonmaturing Native Fistulas by Using Angioplasty
    Timothy W. I. Clark, Raphael A. Cohen, et al
  - Vascular Access Strategies and Best Demonstrated Practices
