Depression in kidney disease

WHY ME?

Better known as:

I'm in the dumps.

I just feel horrible all the time.

I can't stop crying.

I feel bummed out.

Why do I feel this way?

Life sucks.

Nobody understands me.

Signs/Symptoms

Sleeping too much.

Lack of energy

I don't feel like having treatment today!

If you are feeling any of these symptoms talk to your Doctor and Social Worker for guidance.
